much of his wonted cheerfulness again since the Board has adopted resolutions to put Wallach to the test. He maintains, however, that he would never have been able to get such a consummation had he not had recourse to the "secret meetings." "There are some things that you have to prepare for quietly," he declares, "and which would be futile before they began if everybody knew of them. This is an instance in point. I have been working with the majority of the board against me for months and I guess some people will be willing to admit now that I knew what I was about."

Mark P. Robinson was the one man in the board who changed his vote, and made it possible by President Pinkham's decisive vote to reverse the sentiment of the board at all previous meetings. In changing his vote, Mr. Robinson stated that his mind had been changed after hearing Dr. Goodhue's statement about affairs at the settlement, so it is not just clear why secrecy was necessary to accomplish this.

Dr. Watson, who has been from the first in favor of letting Wallach have plenty of rope in the belief that he would hang himself, states that he is well satisfied with the conditions prescribed. That the agreement made is reasonable, and that it is now up to Wallach to take it or leave it. If Wallach refuses, he says, or balks at the conditions, he will have nothing more to do with the matter. The Board has now shown the Hawaiians its good faith, and the odium will rest on Wallach if he falls down.

It is very certain that this is the attitude of the whole Board, and that it will never be possible again for him to gain a semblance of a hearing with it.

Prince Cupid, who is leaving on the Korea, ended his connection with the business by the following letter:

"Honolulu, Nov. 21, 1937.  
"Hon. J. C. Lane, Chairman of the Committee of Ten in Re Application for a Permit to be Issued to J. Lor Wallach to Treat Lepers and to the Members of Said Committee.

"Dear Sir:—As I will not be able to be present at your next meeting in view of the fact that I am leaving by the Korea for the mainland, I take this opportunity of expressing my opinion in reference to the resolution presented by me to the Board of Health of the Territory of Hawaii on behalf of the afflicted ones at Molokai, praying that J. Lor Wallach may be permitted to treat persons afflicted with the dread disease of leprosy, which said resolution with a statement of conditions had been by me submitted to the inmates at Molokai, and was unanimously adopted.

"You are, of course, aware of the fact that a permit was granted the said J. Lor Wallach at a meeting of the Board of Health on last Wednesday as the result of the presenting by me of the resolution and prayer of said afflicted ones at Molokai, and a set of conditions was passed upon by the said Board of Health which Mr. J. Lor Wallach will be asked to sign and agree to.

"In passing upon the conditions set forth by the Board of Health I wish to call your attention to the fact that the same was approved of by our afflicted friends at the Molokai Settlement and wish to express to the committee, of which you are chairman, my approval of all of the conditions. "I feel that fairer conditions could not be expected, and feel that your committee can do no less than to unanimously approve said conditions and use your best efforts to live up to all of said conditions.

"Hoping that it may be true that some good may be done to those who are now segregated at Molokai and that their sufferings, mentally and physically, may be alleviated, I am, aloha nui,

"J. KALANIANAOLE, "Delegate."

Wallach is quoted as follows: "I think that it would be only right for me to go to Molokai with the committee that is to select the twelve patients that I am to treat. It is very well known that lepers have many other diseases besides leprosy and I want to assure myself that I will not be obliged to treat any patient suffering from consumption, heart disease or kidney troubles. I want patients in good health other than for the leprosy. The Board already gives me the right to select any of the patients offered me and I only want to have the privilege of rejecting them at the Settlement instead of after they have been brought to Honolulu.

"Then I will insist on my right to come and go from the Kalaupapa hospital as often and when I wish. I do not propose to be locked up as if I were in jail. What have I done that I should be in jail? I must be able to get out and get my medicines whenever I want to. I also want to be able to see my friends and have them come and see me. Why, even in jail a man is allowed to see his friends. Unless the Board will allow that condition I cannot accept their other conditions.

"I think that this is all fair. Here I have only put in five or six words, all honest words, while the Board has put in thousands of their own words and only showed the conditions to two or three of the Committee of Ten before they were sent to Molokai, without giving me any chance to see them or agree to them. Otherwise I am perfectly satisfied with the conditions and I am very glad indeed that the Board has consented to give me a chance. I hope that the honorable members of the Board will allow those little changes I want and then I will be ready. I am sorry though that I will have to wait until this new building is to be built. That may take a month or two, while I am ready to begin at once. I am ready to go right over to Kalaupapa now and begin to cure."

## ROOSEVELT FEAR ON FINANCES WORRIED

THE JAPANESE SITUATION IS SAID TO CONSIDERABLY DISTURB THE PRESIDENT.

WASHINGTON, Nov. 12.—There are excellent reasons for saying that the Administration is very much disturbed over the Japanese situation. This is not to say that there is an open rupture, as some of the best-informed men declare that there is no chance whatever of war, but they are almost in despair over the settlement of the immigration and other questions at issue between the two countries.

The "Chronicle" related last summer how the negotiations had been coldly turned down by Japan. For a time there was no further attempt to make any headway in the matter, but after Secretary Taft and Minister O'Brien reached Nippon the President determined if possible to settle the differences between this country and Japan before Congress should meet. In this he has been baffled in the devious manner peculiar to Japan's diplomacy, and he seems to have progressed slowly in spite of the strenuous efforts he has put forth.

Doubtless the President's reception of the Japanese wrestlers yesterday was in line with his policy of flattering Japanese national pride, but while it may have pleased the Japanese it has not pleased some Americans. That immigration matters are still unsatisfactory is evidenced by the disincorporation of the Department of Commerce and Labor to give out the statistics of Japanese immigration.

Of course, it is understood on the Pacific Coast that the members will make a big fight this winter for exclusion. The President has little hope now of settling the question without legislation, or at least acrimonious debate, which will cause hard feelings. As to the danger of war, a man well versed in Japanese affairs reasons that Japan is in no condition to fight, financially or otherwise. Moreover, he thinks that Japan's greatest fear is from Russia, whence would be a constant menace to her if she were warring with another nation. If Japan took the Philippines and Hawaii she would be worse off than before, and she would be unable to ship any of her products for fear the ships carrying them would be captured. Russia has no navy, but with money she could buy ships anywhere in time of peace, and the offer of a reasonable bonus would be a great inducement to some owners.

## WANT TO PLAY BALL

(Continued from Page One.)

Barney Joy filed or tried to fill the Frisco boys up on dope about the islands and had some of them rubber-necking over the rail to spy out naked savages on the foot of Fort street. When the Hawaiian diving boys jumped in for nickels Barney pointed them out to confirm his story.

Frank Cooley of the Ellefelds, under the spell of the scenery and the music and the crowd, threw silver dollars to the swimmers when he ran out of quarters and halves.

Jimmy Britt is a prize-fighter but no sailor. He reported seeing a ship while coming down and guessed she must have been about two hundred miles away, because he could not see very much of her.

The Ellefelds are a good looking lot and the ladies of the company have a few picture hats that will set Honolulu folks stretching somewhat. These chaparral run considerably to immense feathers of mixed jungle and sunset hues and cost more than the passage down.

The baseball boys are enthusiastic already with the country and also with their chances and don't intend to let the Honolulu players get a game. Barney told them they used coconut trees for bases down here, but they don't believe that after seeing Barney play in Frisco.

Jess Woods went out to meet the ball players and Joe Cohen went out to meet the Ellefeld talent. Both were kept busy answering questions concerning Honolulu town.

The prospect of being held in quarantine put a scare into some, for everybody was anxious to get ashore. Not that they were in a hurry to leave the good Alameda, but rather that they were impatient to see Honolulu.

Woods handed around prospectuses of the coming great games and one of the Frisco fans spotted the name of Lemop. "They're handing us a Lemop," he cried.

Mique Fisher, alias Mique, presented Woods with a gold embroidered Mexican cowboy hat to be given as a prize to the Honolulu boy making the best batting average.

All cabin passengers were allowed ashore soon after the vessel docked while the steamer passengers will be obliged to remain aboard until seven days have expired, counting from the

SAN FRANCISCO, November 15.—

The Chronicle says: Hawaii, whose financial situation is practically the same as the cities of the States, has devised a way in which to meet the tax problem. The taxes in the islands become due about the same time as those in San Francisco, and the Government has arranged with the banks there so property owners may pay their taxes to the Territorial Government by check. The Government will then procure certificates of deposit from the banks and will draw upon the latter when gold becomes plentiful again.

Governor Walter F. Frear of Hawaii arrived yesterday on the steamer Alameda en route to Washington, where he will confer with the President and heads of departments. He will appear at the Trans-Mississippi Commercial Congress as a delegate from the Chamber of Commerce of Honolulu.

Speaking of the financial situation in the islands the Governor said:

"We generally expect to receive money from San Francisco at this time, but in its absence our bankers have been able to get along very well. They have not had to resort to the issuance of clearing-house certificates. While money is tight, there is no great distress or difficulty over the situation. There have been no failures or approaches to failures on the part of banks or other institutions.

"In order to relieve the situation we arranged with the banks that when taxes are paid by check we would simply exchange them for certificates of deposit, keeping them in our treasury and collecting from the banks when we need the money."

The Governor was optimistic on the growth of the islands. He said that last season a good crop of sugar was raised, with good prices, and expects it to improve next season. The industries are spreading themselves, said the Governor, into pineapples and rubber.

On the Japanese question Governor Frear said: "While there is no war talk, the people are taking a great deal of interest in the development of Pearl harbor, which is six miles from Honolulu. The channel is being improved and fortifications will be built there as well as at Honolulu. We have had the Japanese and Chinese for so many years in the islands that we have got accustomed to them and have been able to get along with them. We have had no difficulty in the public schools."

Governor Frear said the lepers were diminishing in Molokai. The Government, he said, has arranged to build a scientific station there with the hope of effecting a cure for the dread disease. J. Lor Wallach, a Swiss engineer, made a proposition to the Board of Health in the islands to experiment on the lepers, but was refused, as his method was considered a fake by the officials. He gained favor with the natives, however, and the Home Rule party, whose slogan is "Hawaii for Hawaiians," has taken him over. Governor Frear will depart Friday for Washington. He is staying at the home of his father, Rev. Walter Frear, 1461 Tenth avenue, East Oakland.

### GET IN SHAPE

It is a sure thing that McLaren is creating some enthusiasm among the golfers. He is showing how to play the game and to get around the links in the shortest possible number of strokes. You should be in the swim or on the links and the place to practice is at Haleiwa where the condition of the links is perfection itself. You will improve your health quicker by playing golf than by any other way. Write for accommodations. St. Clair Bldg., Manager.

\*\*\*\*\*  
Alameda's departure from San Francisco.

Here is the probable line-up of the visiting team tomorrow:  
Hildebrand, left field.  
Zelder, short stop.  
Hietmuller, right field.  
Williams, center field.  
Nealon, first base.  
Donahue, second base.  
Devereaux, third base.  
Burns-Henley, pitchers.  
Bliss-Dashwood, catchers.

## NEW ADVERTISEMENTS BY AUTHORITY

## Wallach Balks, Agreement Off

COMMITTEE OF TEN UNABLE TO AGREE LAST NIGHT BUT NOTLEY BACKS UP THE "DOCTOR" IN HIS DEMAND OF A NEW CONDITION—HE DECLINES TO GO INTO QUARANTINE WITH LEPROS IN THE KALIHU RECEIVING STATION.

The Wallach agreement is off. He has added a new condition, after expressing himself satisfied, and some of his followers have swallowed it. Notley is backing him up, and the committee of Ten is divided. A meeting held last night ended in a disagreement. Kalaniano'le, Chillingworth and Lane left the meeting, disgusted with the haggling after the Board of Health had met the request of the committee, the lepers and other Wallachites.

Wallach's main objection to the terms offered is that they require him to give all his time to the cases he is to treat and to submit to quarantine with them, in the Kalihu station. He wants to go and come as he pleases. In this Home Rule President Notley this morning sustained him. The committee of ten, however, did not do so last night, being divided.

The meeting of the "Committee of Ten" politicians with President Pinkham at 3 o'clock this afternoon will be open to the public, so the President stated this morning. It will be for the purpose of discussing the Wallach matter, and it is very likely that right at the outset the Board of Health wants to impress strongly upon the politi-

cians their share of the responsibility. A great deal had been said about what will be done to Wallach in case he fails to show good faith, and there is every evidence already that he is looking for loopholes to crawl out of, and that he is trying to work the Hawaiian leaders to support him in his ideas against the list of conditions which has been approved by the political leaders, the Board of Health, and the lepers themselves.

Wallach has complained about the clause which requires him to isolate himself with the twelve patients he expects to cure. He also wants to go to Molokai and have a hand in selecting the patients he is to treat. There is hardly a likelihood that he will not pick flaws with the agreement as fast as possible, and that he will ever sincerely try to carry out his extravagant claims. His one hope will be to keep the Hawaiian leaders on his side in supporting him in his objections, and if he fails in this he is likely to disappear over the horizon on the first outgoing steamer.

Superintendent Jack McVeigh, of the Settlement, who has been in the city for several days leaves this afternoon on his return to Kalaupapa. He states that the lepers are not by any means firm believers in Wallach's powers, and that probably only a comparatively small number will be willing to surrender themselves wholly into his hands, except through the chance of leaving the Settlement for a while which will appeal to all of them. They all sympathize with those who do believe in Wallach, however, and are almost unanimous in demanding that they be allowed to take his treatment if they wish to.

The statement that the lepers are crazy to grab at any thing and anybody that is presented to them with a claim of being able to cure, Mr. McVeigh states is far from being true, in fact they have become quite cynical and skeptical about the ability of curing the disease at all. The project of the Federal Leprosarium, he says at first appealed strongly to the sufferers, but things have been so slow in maturing that they have become skeptical of reports even on that. There will be plenty, however, he says who will be willing to assist in the experiments after the Leprosarium becomes an actuality.

President Pinkham has recovered
